Summary

Information regarding Village and Town business and operations has been provided to CGR to be used in forming a dissolution plan. This study is not a determination to dissolve but a fact finding exercise to determine the practicality of a village dissolution. The committee reviewed minutes from the April 20th meeting.

Discussions

We discussed what is in a dissolution plan and that we will be using the plan that the Town of Altmar used as a template of what to expect for public presentation. There are key steps in the process and a timeline that will need to be followed. Article 17-A gives the sequential steps to follow prior to the final vote.

Fiscal and Tax Impact Projections were briefly discussed and a baseline model was given from data gathered from 2010-11.

The committee discussed moving forward with the study and to conduct some public meetings to see what the general consensus was around the village. We talked about our DPW tasks and what services would be terminated should we dissolve and we determined we would need to create a more definitive project list and discuss it line by line.
