5/11 Public Meeting

We discussed the outstanding meetings still to be scheduled, from Carol's master list. Names included Kim Pimly, Pam Machold, Florence Kahn and Elizabeth Bates, among others. The purpose of such meetings at this point is to update the community on our progress and still, get their views.

We then discussed a simple question or two to be asked at the Communiversity table on the 30th. The questions: What do you most hope Consolidation will accomplish? What most concerns you about Consolidation?

At the meeting on the 11th, Joe will run through the options and there will be a discussion of the recommendations by the Subcommittee chairs. Although it will be in Township Committee Room A, we will not be elevated above the public.
